Department of Electronics and Communication

(Advanced Communication Technology)

REPORT OF “NATIONAL SPACE DAY CELEBRATION”

Date: 23/08/2024

Time: 04:00 PM to 05:15 PM

Goal: To celebrate India’s achievements in space exploration and raise awareness about the societal impact of space research among Engineering Students.

Objective: To inspire students in the Electronics and Communication (Advanced Technology) Department to explore opportunities in space technology and scientific research.

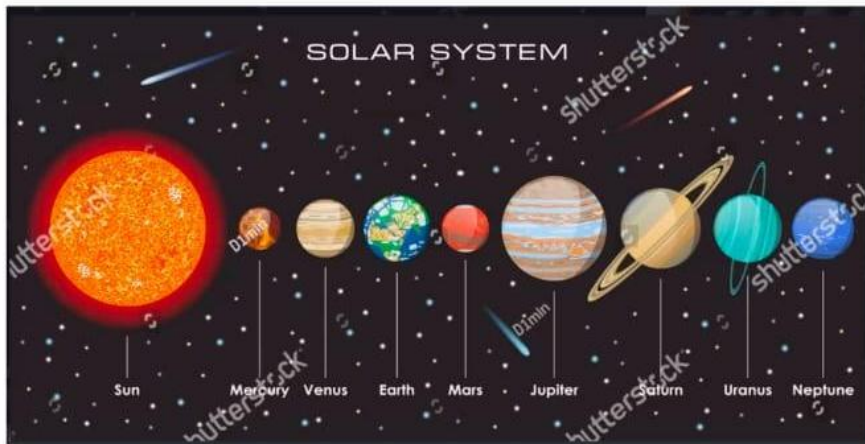

Benefits:

- Students gained insight into India's space exploration milestones, including ISRO’s landmark lunar landing.
- Inspired students to explore career opportunities in aeronautics, communication systems, and space technology.
- Created awareness about the impact of space research on daily life and technological advancements.
- Inspired students to align their skills with the needs of space-related fields, leveraging their background in Electronics and Communication.

About Event:

- Students participated in an online program organized by IETE (Institution of Electronics and Telecommunication Engineers).
- The theme for 2024, "Touching Lives while Touching the Moon: India's Space Saga," highlighted the social impact and endless possibilities enabled by India’s space exploration.
- The event celebrated ISRO's landmark lunar landing and emphasized the broader contributions of space technology to society. Students also got knowledge of various events and milestones that helped as stepping stones for this achievement.
- Event further elaborated on significance of India’s scientific and technological advancements and their role in shaping the nation’s space exploration legacy. It also highlighted India’s contributions to the global space community.
