

Activity Report

Date:25/03/2026

Name of Activity Organized by	Dept. Of Electronics & Communication (A.C.T)
Title of Activity	Awareness Session on Autonomous Vehicle for A-BAJA (Under COE)
Speaker / Resource Person	Prof. P. B. Chaudhary (CSMSS)
Date of Activity	23 rd March 2026
Place of Activity	Smart Class Room B-605 At 11.15 AM
No of Students	64 Students
Summary:	<p>A Center of Excellence (COE) is a specialized unit within CSMSS CSCOPE that focuses on achieving high standards in a particular field such as technology, research, innovation, or skill development. COEs aim to provide advanced training, promote research activities, and bridge the gap between academia and industry. They are equipped with modern tools, expert faculty, and industry collaboration to enhance students' practical knowledge and employability. COEs also support innovation, entrepreneurship, and real-world problem solving. BAJA programs encourage students to participate actively in learning beyond the classroom and help in personality development, teamwork, and leadership skills.</p>
Outcome:	<ol style="list-style-type: none">1. Enhanced technical knowledge and practical skills in specialized domains.2. Improved research, innovation, and problem-solving abilities among students.3. Increased industry collaboration and exposure to real-world technologies.4. Development of competency in using advanced tools and equipment.5. Better employability and placement opportunities for students.6. Encouragement of entrepreneurship and startup culture.7. Active participation of students in workshops, seminars, and training programs
