Department of Electronics & Communication (Advance Communication Technology)

ACTIVITY REPORT

Date:19/05/2026

Name of the event:	ACTECH FEST 2K26 (on the occasion of World Telecommunication Day)
Date of the event:	18 th May 2026
Participants:	80 Teams
Summary:	<p>ACTECH FEST 2K26 was successfully organized by the Department of Electronics and Communication (Advanced Communication Technology) on 18 May 2026 under the Student Association of Advanced Communication Technology (SAACT) on the occasion of World Telecommunication and Information Society Day. The event was conducted with the objective of promoting technical awareness, innovation, analytical thinking, and practical learning among engineering students.</p> <p>The fest consisted of two major events: a Project Expo and a Technical Quiz Competition. The Quiz Competition commenced at 10:00 AM and witnessed enthusiastic participation from 53 teams. The competition was conducted in three rounds covering Mathematics, General Knowledge, recent technological and current affairs activities, technical knowledge from various engineering streams, and telecommunication-domain-based questions. The quiz aimed to test participants' analytical ability, technical awareness, logical thinking, communication skills, and presence of mind. The competition created an engaging and competitive environment among students and concluded successfully at around 12:15 PM.</p> <p>The Project Expo began at 1:00 PM with participation from 27 teams showcasing projects from hardware, software, and integrated domains. Students presented innovative ideas, working models, software applications, automation systems, communication-based solutions, and multidisciplinary projects demonstrating practical implementation of engineering concepts. The expo provided an excellent platform for students to enhance their presentation skills, technical understanding, creativity, and problem-solving capabilities. Faculty members and students from different departments actively visited the exhibition and interacted with the participants regarding project concepts, methodologies, and applications.</p> <p>Later in the evening, the Honourable Principal, Vice Principal, Academic Heads, and Heads of various departments visited the expo and appreciated the technical depth, innovation, and quality of projects presented by the students. The event concluded with the prize distribution ceremony for winners, first runners-up, and second runners-up of both events, followed by a vote of thanks.</p> <p>With the coordinated efforts and active participation of faculty coordinators, student volunteers, and the entire ACT department, ACTECH FEST 2K26 was successfully completed at around 4:30 PM.</p>
Outcome:	<p>The event successfully enhanced students' technical knowledge, analytical thinking, and practical learning abilities through competitive and innovative activities. Participants improved their teamwork, communication, presentation, and problem-solving skills. The quiz competition increased awareness in mathematics, current affairs, engineering concepts, and telecommunication technologies, while the Project Expo encouraged innovation and interdisciplinary project development. The event also strengthened interaction among students, faculty members, and academic leaders, motivating students toward research, creativity, and professional growth.</p>
