DEPARTMENT OF ARTIFICIAL INTELLIGENCE & DATA SCIENCE

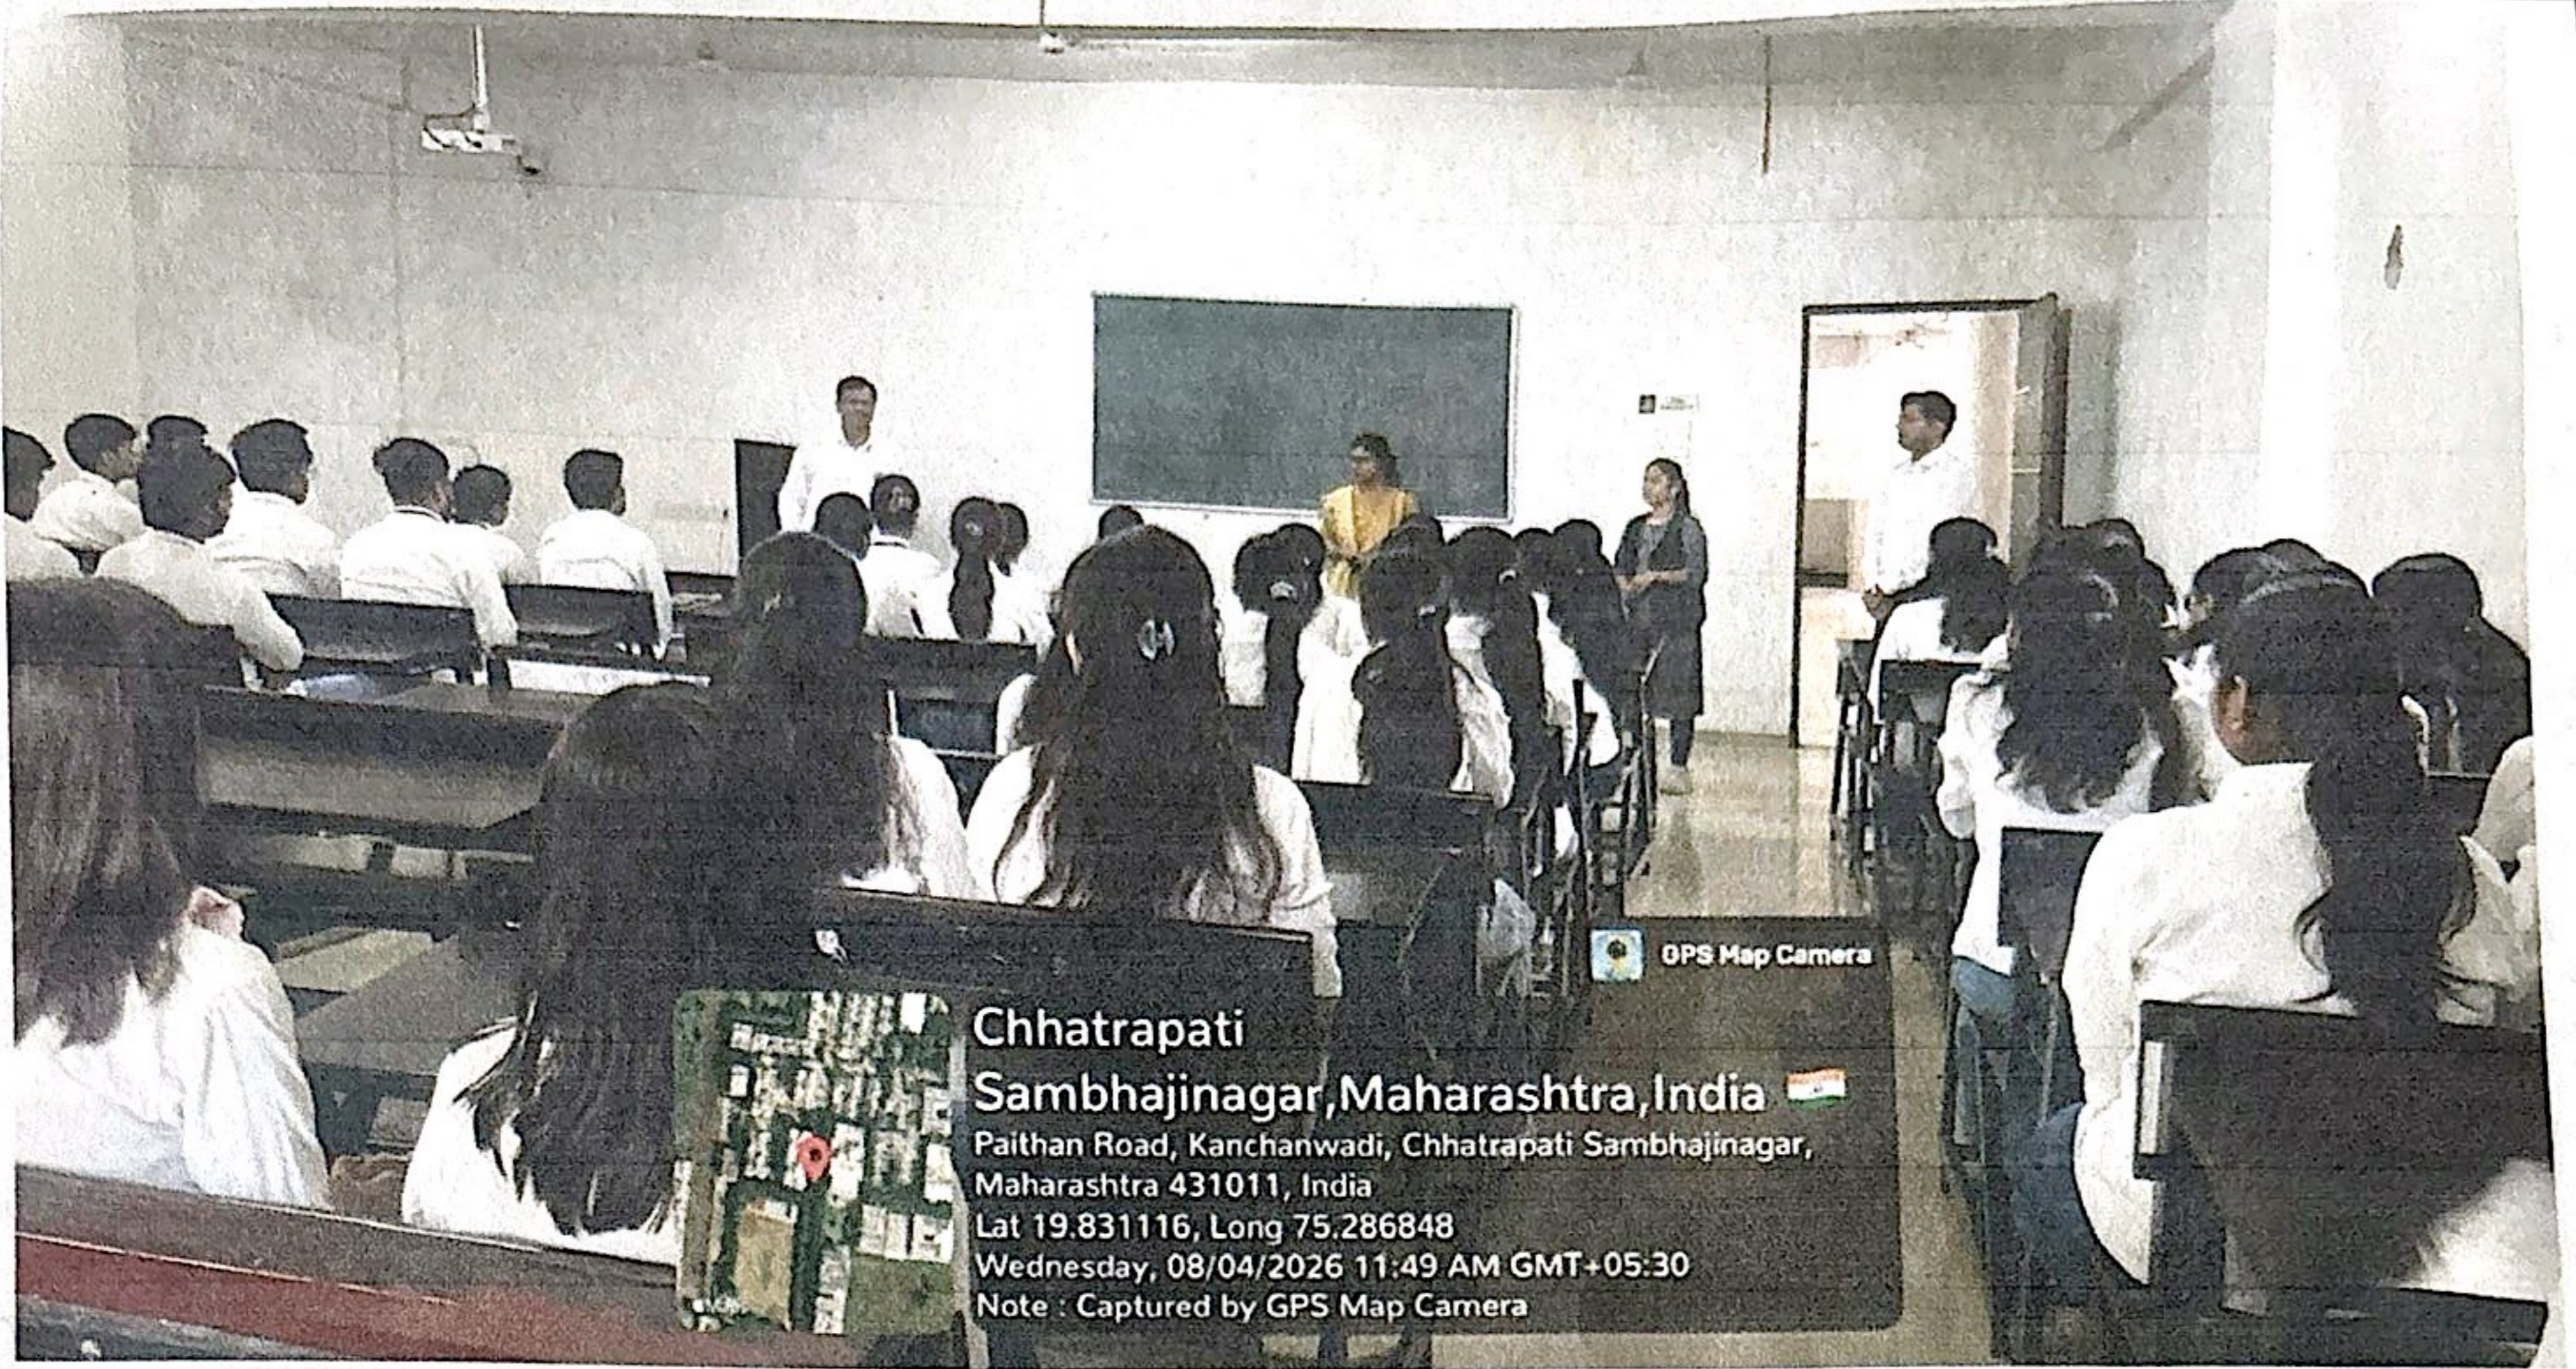

Name of the event:	NPTEL Examination Awareness Session
Date of the event:	8 APRIL 2026.
Participants:	AI & DS SY & TY Students
Summary of the event:	<p>The Department of Artificial Intelligence & Data Science successfully conducted an NPTEL Examination Awareness Session for second-year, third-year students. The session aimed to create awareness about the importance of online learning platforms and the opportunities provided by NPTEL in the field of Artificial Intelligence and Data Science.</p> <p>The session was conducted by the Head of the Department, Departmental NPTEL Coordinator, all Faculty Mentors, and NPTEL exam-registered students.</p> <p>Students were introduced to the structure of NPTEL courses, which includes:</p> <ul style="list-style-type: none">• Video lectures by expert faculty• Weekly assignments• Quizzes and discussion forums• Final proctored examinations <p>Special emphasis was given to selecting career-oriented courses aligned with AI & DS domains, enabling students to enhance both their theoretical knowledge and practical skills.</p> <p>Students were also introduced to the NPTEL evaluation system, including marks distribution, ranking criteria, and medal categories. The session explained how the final score is calculated from assignment marks and the final examination, and how students are ranked nationally.</p> <p>Detailed guidance was provided on how the NPTEL examinations are conducted, including the registration process, exam pattern, proctored examination system, and important instructions to be followed during the exam.</p> <p>The benefits of achieving medals (Elite, Silver, Gold, and Topper ranks) were also highlighted. It was explained that these recognitions not only reflect academic excellence but also add significant value to students' resumes, placements, higher studies applications, and career opportunities, making them stand out among peers.</p> <p>Students actively participated by asking questions related to exam patterns, difficulty levels, time management, and course selection, making the session highly interactive and engaging.</p>

Outcome:

- Increased awareness about NPTEL courses and certification benefits
- Enhanced interest among students in AI & DS-related online courses
- Better understanding of industry-relevant skills and learning pathways
- Encouragement towards self-learning and continuous upskilling
- Strengthening the department's focus on digital learning and certification culture.
